

ICSET 2026 Poster Presentations

All Abstracts from ICSET 2026 will be published in the inaugural edition of JSES Sports Performance Rehabilitation & Therapy which is scheduled for online publication in late February 2027

1. Post-Operative Management of Complex Elbow Fracture Dislocation - Kinny Quan Velanoski
2. Effect of Shoulder Internal Rotation Exercise With Electromyographic and Ultrasonographic Biofeedback in Patients With Painful and Restricted Hand-Behind-Back Motion: A Randomized Controlled Trial - Kosei Goma
3. Comparison of Trunk-Based and Scapula-Based Angle Definitions at Minimum Acromiohumeral Distance - Mitsuhiro Seo
4. Effects of Trunk and Pelvic Girdle Exercises on the Costoclavicular Space - Ryuji Higashida
5. Effects of a One-Week Exercise Program Using a Functional Shoulder Brace on Shoulder Function and User Experience in Collegiate Volleyball Players: An Exploratory ABA Design Study - Yuya Tanaka
6. Association Between Scapular Morphology and Scapulothoracic Kinematics During Shoulder External Rotation at 90° Abduction - Ryo Tokita
7. Patients experiences of non-traumatic shoulder instability and a novel physiotherapy treatment strategy - A qualitative interview study - Anna Kjell
8. Closed Kinetic Chain Performance Across Sport-Specific Shoulder Demands - Lindsey Colbert
9. Ulnar Collateral Ligament Micromorphology Collagen Structure is Associated with Pitching-Specific Adaptations to Shoulder External Rotation - Aaron Hewus
10. Which Exercises Increase Scapular Posterior Tilt and External Rotation? - Tim Uhl

ICSET 2026 e-Poster Presentations

1. Living with chronic shoulder pain: A qualitative exploration of perceptions and experiences - Airlon Nery Ferreira
2. Factors Associated with Conversion from Anatomic Total Shoulder Arthroplasty to Reverse Shoulder Arthroplasty: Focus on the Subscapularis Muscle - Ayako Ogur
3. Influence of Prior Shoulder Surgery on Postoperative Function after Total Shoulder Arthroplasty - Itsuki Shimada
4. Effects of Posture and Shoulder Horizontal Flexion Angle on the Acromiohumeral Distance and Apparent Supraspinatus Tendon Occupation: An Ultrasonographic Study in Healthy Individuals - Koji Kumashiro
5. An Elastomeric Elbow Supporter Reduces Medial Elbow Joint Space Widening Without Affecting Performance During Repetitive Throwing - Kohei Matsumoto
6. Shoulder horizontal abduction stretching with scapular posterior tilt increases the shear elastic modulus of the pectoralis minor - Ren Yoshizaki
7. Impact of Deltoid Muscle Stiffness on Active Shoulder Adduction After Reverse Shoulder Arthroplasty - Shinya Misumi
8. Kinematic factors associated with trunk and pelvic rotation at ball release in elementary baseball players - Takuya Aso
9. When the Deltoid Fails: Preoperative Deltoid Rehabilitation Prior to Reverse Shoulder Arthroplasty in a Patient with Axillary Nerve Injury - Derya Çelik
10. Provocative Arm Positioning Increases Ulnar Nerve Stiffness in Thoracic Outlet Syndrome - Kentaro Sakuma
